TURBDAY, Jan. 17-8 P. M. This has been, on the whole, a very dull day in Wall street, although the confirmation of the rumored cap-ture of Fort Fisher occasioned some excitement in the

he speculative feeling tame. The closing prices showed has speciment to the following variations from those of yesterday's second board:—Eric declined 3, New York Central 3, Rock Island 3, Hudson River 13, Reading 13, Michigan Southern 1%, Illinois Central 1, Cleveland and Pittsburg ¼, Chicago and Northwestorn 1, preferred ¼, Fort Wayne 1¼, Cumberland ¼, Ohio and Mississippi certifi-cates 2½. Quicksilver advanced ¼, Mariposa ¾. Government securities were steady, excepting sixes of

1881, which were ¼ lower. Coupon five-twenties, both of the new and old issue, advanced ⅙. Ten-forties sold

and a fraction lower. At the second regular board there was a little more activity. Eric declined %, Quicksilver %, Ohio and Mississippi certificates 2. Reading, Illinois Central, Cleveland and Pittsburg and New York Central were steady. Fort Wayne advanced 1/4, Michigan South-ern 1/4, Mariposa 1/4, Hudson River 1/4, Cumberland

old at 102%, five-twenties 109%, new issue 109%. At the open board at half-past three the market was shade lower on some of the railways. Erie closed at

Rock Island, 101; Cleveland and Pittsburg, 9136.

The money market is easy, and the supply of capital seeking investment on call at seven per cent is abundant. The large government balances romaining with the national banks, contribute mainly towards this condition of affairs at present, while the absence of a story moral stress calling either. thile the absence of a strong speculative feeling, either olding for a rise, but others are gradually selling out, as their necessities require, and this checks any advance might otherwise take place. Moreover, the government creates a certain degree of discrust, which operates unfavorably upon national securities gene-rally. Congress shows itself disposed to second the views of the Treasury in resorting to temporary exedients, and the prospect of the issue of seven-thirty totes being extended to four hundred millions indicates of increasing the gold bearing debt, in directly i not directly, and a disposition to be content with the adoption of mere palliatives instead of a deter

and people generally, with respect to the state of the na-tional finances is one of the deplorable signs of the times. There appears to be no anxiety for the future of the paper dollar and the public debt, and the Secretary of Treasury has evidently no higher ambition to shuffle along till next March, when ch he ought now to be performing to his suctunity for personal distinction and public utility utterly neglected, and to neglect the fiscal affairs of

government in any financial measures it may fit to adopt, and a very grave responsi-rests upon it for the fulfilment of this of the great trust committed to lie care.

present and prospective, are likely to create a flow o mede in our favor, and at the same time exercise a sendble effect upon the British money and produce markets.

The fact that the Broadway Bank, which has reorgan ized under the national law, still retains its place among the associated State banks in the Clearing House is a g gesting the inquiry whether or not this arrangement is to become permanent and include all other city banks beto the association which may adopt a similar The constitution of the Clearing House contains nothing opposed to the admission of national banks, and its sphere of usefulness might be extended, and the two banking systems harmonized to a great extent, by the admission of the national banks.

Article 17 of the constitution says:—"New members may be admitted into the association at any meeting thereof. Such new members shall pay an admission fee of one thousand dollars, and shall signify their assent to this constitution in the same manner as the original members. But no new member shall be admitted excent by a vote of three fourths of those present."

The new system, bowever much it may be fraught with danger, is spreading so rapidly, and is so closely identified with government interests, that it is useless to preach against or try to ignore it. The best that can be done is to reconcile the antagonisms be-tween the new and the old order of things as mub as possible. Before very long the full three hundred millions of currency authorised under the act will be in circulation, unless the Correacy act is amended in this particular.

The wheat market still continues mactive, and prices were a trifle lower, and holders would have to submit to a decline of 3c. a 4c. in order to effect sales to any considerable extent. Rye, barley and malt were duit, and, in the absence of business, prices were wholly nominal. The corn market though more active was lower, old having declined ic. a 2c., with sales of 14,000 bushels at 31 88, in store, for mixed Western; 31 81 for new yellow Jorsey, and 31 95 for white Western. Covers—The decline in gold to day depressed the market somewhat, but holders, in view of the light receipts and small stock, were very final in their views, and were generally unwilling to grant any concession in prices in order to effect sales. The demand was light, sales having been effected of only 40 bags Marnonibo at 40c. and 80 do. Rie at 40c. at 46. We quote, on a basis of 219 per cent for gold:—Rio, princ, 46c. a 46 ½c.; do. gold, 45c. a 45½c.; do. fair to good cargoes, 42 ½c. a 44 ½c.; do. fair to good cargoes, 42 ½c. a 44 ½c.; do. fair to good cargoes, 42 ½c. a 44 ½c.; do. fair to good cargoes, 42 ½c. a 44 ½c.; do. four mouths; St. Domingo, 50c. a 46c., cash. The Pengeation of Iscomes Promutan,—Orders have been issued by Commissioner Lewis to the collectors and boen issued by Commissioner Lewis to the collectors and assessors of internal revenue to prohibit in future the publication of the names of persons liable to pay income tax. This action on the part of the Commissioner was deemed necessary for the protection of professional men of small means, who do not wish to have their private affairs had open to the public through the medium of the press. The authorities at Washington, it is said, have been appealed to by this class of taxpayers to put a stop to the publication of names, said, in obedience to their petition, Commissioner Lowis has issued peremptory instructions to that effect.

The Stow Stoam Yestermax.—The snow storm which commenced about ten o'clock yesterday morning, gradually increased in intensity during the day, until about five o'clock in the evening when it began to subside. The ground being thoroughly dried, by the fow preceding days frost, was in fine condition to furnish excellent sleighing, and later in the evening the acounts of the merry sleigh bells hold that the lovers of that bealthful enjoyment were not slow to avail themselves of the golden opportunity. In the early part of the day the streets were so sippery, that pedestrians were compelled to exercise a large amount of caution to enable them to maintain upright positions.

Horses, and particularly those poor superagnuated specimens attached to Broadway stayen, suffered severely. In many cases half a dozen of these unfortunate brutes could be seen in one block on Broadway, tying proctrate under the wheels of the vehicles they were apposed to propel, and many of them seemed grateful for the few moments' rest thus accidentally obtained. Skaters were somewhat disappointed by the storm, as otherwise the pends were in excellent condition; but if the snow ceases, and 'Jack Frost' continues to prevail for a few days longer, a lengthened period of good skating may be confidently looked for.
